

The Biker's t-shirt

OUR STORY

Founded by Rasha in 2019, a visual narrator and veteran in design, but still a newbie to the biker world and doesn't own a bike, yet!

Rasha was introduced to riding recently and fell in love with it so much that she decided to start The Biker's T Shirt, which combines her love for design & bikes, and to help her save up for her first Harley.

The Biker's T Shirt is a contemporary biker streetwear and lifestyle company, based on sourcing the best quality garments and curating products made only in the USA.

We design and collaborate with vendors to bring the premium clothing and accessories for serious and passionate bikers who appreciate quality and attention to detail in every purchase they make.

After all, you should treat yourself as well as you treat your bike.
